HTML5, XML, CSS3, Bootstrap, JavaScript, jQuery, ReactJs, Redux, Responsive UI, Node.js (RESTful API), Express.js, MongoDB, MySQL, Python, Problem Solving, Data structures and algorithms, Git.

PROJECTS

PROJECT 1 | NAYAH FOODS

DURATION : 3 Month

Domain: Web Development

Languages: Bootstrap, ReactJs, Node.js, Express.js, MongoDB

Hosting: AWS

- This is the e-commerce website that has minimal products for customers, like grains and powders, with a good, appealing user interface and user experience design that is fully responsive for small screens as well and developed by ReactJs with Bootstrap.
- The backend server, API handles, and database are implemented using Node.js, express.js, and mongoDB.
- Implemented secure authentication and mail verification for user signin.

PROJECT 2 | ANYWHERE EYE

DURATION : 1 Month

Domain: Web Development

Languages: Bootstrap, ReactJs, Node.js, Express.js, MongoDB

- This is a product stock monitoring web app maintained by the admin and supervisor with different purposes.
- The admin can assign a certain category of products for a supervisor to manage and monitor.
- This web app was developed with a focus on security measures to ensure secure user sessions.

PROJECT 3 | JOURNEY BEGINS

DURATION : 1 Month

Domain: Web Development

Languages: Html, Css, JavaScript, Django

Database: Firebase

Hosting: AWS

- It is a bus ticket booking website which have the functionalities of search.
- List of bus and seats available. Ticket invoice download option.
- Subscription facilities with customer benefits. Payment processing.
- We had also included the online banking system with virtual money.

PROJECT 4 | CODE VITA

DURATION : 1 Month

Domain: Web Development

Languages: Html, Css, JavaScript, Django

Database: Firebase

Hosting: AWS

- The students want to apply for internships in their fields of interest.
- The students might have struck out at the large steps of the application process.
- As a result, we created a set of simple, necessary steps that allow students to effectively apply their internships.

INTERNSHIP

Company : TNXT India Private Limited (Coimbatore)

Dec 24 - Mar 24

- I joined as a full-stack web developer intern and worked on developing e-commerce projects using the MERN stack.
- I got to learn a lot of things when I got stuck with the problems.
- I had a good experience to developing responsive and functionalized websites.
- I explored, gained valuable insights, and refined my proficiency in development.

PROGRAMMING ACHIEVEMENTS AND EXPERIENCE

- Secured **1st place** in out of context **web hackathon** conducted by **Codevita live**(835 participants).
- **Runner up** in internal hackathon conducted by **Sri eshwar college of engineering**.
- Won third place in the **group coding** challenge conducted by Dr. N. G. P College.
- Participated in **front end** web contests (Hacker Earth).
- Participated in **Front-end development** contest conducted by **KumaraGuru College of Engineering**.

CERTIFICATIONS

- **JavaScript Fundamentals** - Guvi
- **Html, Css Begginer to Master** - Udemy
- **MySQL Begginer to Master** - Hacker Rank
- **Modern React with Redux** - Udemy
